About Us

The Diuble Family Vision Foundation

We decided early on not to be paralyzed by our obstacles ... but to rise up and do something about it. Because we personally face vision and hearing issues daily, we know how important this quest is to those who are also facing similar challenges. We are committed and KNOW we can find a cure!

The purpose of the Diuble Family Foundation is to support research for treatment and cures, provide public awareness and to promote the well being of persons with disabilities or the underprivileged.

The foundation is organized exclusively for charitable and educational purposes under section 501(c)(3) of the Internal Revenue Code.

EIN#: 81-2990740

Thank you for joining us on this journey to fight blindness!

Scott, Angela, Lilly & Abby Diuble

A TALE OF TWO SISTERS

We intend to change the world and step out and lead to make a difference. For us, this is personal.

What started as a way to find a cure for one, has grown into a passion to find a way to fight blindness for all and make a difference for many.

Events & Fundraising

We raise money. We're not shy about it. We want to be able to fund as many projects as we can and help give to research and other projects that will change lives.

Projects & Community Engagement

We take on projects that we believe in and that directly support the DFW Foundation mission. See two of our main projects below.

Outreach & Advocacy

We believe in speaking out and helping others as we are able. We are often invited to assist or financially support other causes that are in line with our mission.

Education

Having an open dialog about the issues that face people with vision and hearing loss is a passion of ours. The more you know, the more you can help!

WHIP PROJECT

Seconds can save a life. During a recent tornado we realized just how difficult it is for someone with hearing loss to react quickly in an emergency. This project launched from this trauma and is Abby's brain-child. She started "WHIP" (Warning Hearing Impaired People) ... to help put alarm systems into homes of the hearing impaired. We did a lot of research and have a great system that is easy to install and portable. Our goal is to get it into as many homes as we can of those in need. We are working with local fire departments to make these available for free in your area.

VISION WALK

Since its inception in the Spring of 2006, VisionWalk has raised over \$28 million to fund sight-saving research. As promising treatments move into critical human studies, the need for research funding is greater than ever.

Each spring we raise money and walk to fight blindness by funding the research that will some day find a cure!

Join us and the tens of thousands of people who have taken important steps toward a cure by participating in a 5K VisionWalk.
